for an interactive discussion  
and to begin planning  
for action!

An interactive discussion hosted by the  
**Centre for Research on Health  
Equity and Social Inclusion (CRHESI)**

- Have you been thinking about how to better understand who you are – and are not – reaching?
- Are you wondering about what you need to change to more effectively reach those who need support the most?
- Have you wondered about the role of sociodemographic data collection including race-based data to increase inclusivity and help you do better?

Share your thoughts and questions,  
and hear ideas from others
